

ARMY BASING PROGRAMME

LARKHILL TRAVEL NOTICE – DECEMBER 2017 EDITION 10

Regular users of The Packway in Larkhill will have noted the continued use of temporary traffic light control on the section west of the new roundabout, whilst the highway has been re-aligned to suit the new layout and to provide sufficient width for a section of new combined footpath / cycleway alongside.

Unfortunately, due to unavoidable delays suffered early on in the programme, the final resurfacing of the carriageway has now started to run into the winter months, which is not ideal in terms of achieving a permanent, long lasting surface finish.

Following consultation with Wiltshire Highways and discussion with their supply chain members, the contractor has continued to work towards re-opening The Packway before Christmas and they will now lay a temporary, but Highway compliant, surface to the eastbound carriageway. These works will commence the week of 11 December 2017.

This should all be achievable through the continued use of the current temporary traffic lights, which will then be completely removed upon completion of the roadworks.

Next spring, the temporary surface will need to be lifted and re-laid, but these works should be co-ordinated with the extension of the new footpath / cycle-way, reducing any disruption resulting from these activities.

Further details of any disruptions will be issued through future Travel Notices once the consultation with Wiltshire Highways and other relevant stakeholders has been concluded.

The works taking place to install a new sewer pipe along parts of Fargo Road and Tombs Road will continue until 23 February 2018.

In addition to these works Wiltshire Council will be implementing an emergency road closure on the Wiltshire Council section of Fargo Rd on 12 and 13 December 2017 to carry out some repairs adjacent to the A345 and Woodhenge.
